

Kindergarten

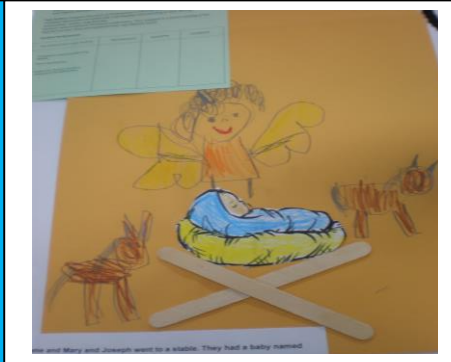

This term has been all about consolidating our learning and building confident self-identities, ready for Pre-Primary next year.

Identity. The students worked as a group to prepare and present an Assembly. They made the costumes and props! Everyone sang and danced the “Robot Dance” in front of the whole school.

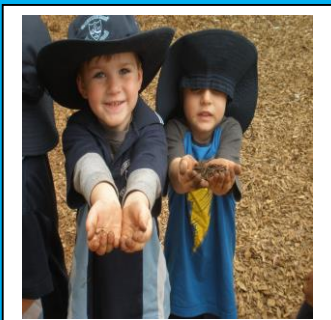

Connecting and Contributing. Children were involved in Christmas celebrations, including a shared reading of the Nativity.

Wellbeing. All year the Kindy class have worked to build knowledge, skills and positive attitudes to physical movement, through a Specialist Music and Movement Program.

Learning and Thinking. Investigating and exploring has allowed us to develop problem solving skills and extend numeracy practices.

Communicating. We have learnt so much by engaging in speaking, reading and writing through play and activities.
