

# PRE PRIMARY TERM 1 2017

What a busy start we have had to Pre primary! We have been busy learning new routines, adjusting to coming to school five days a week and learning lots of new things! It has been so much fun!

Fine motor activities help us to strengthen the muscles in our hands so we can hold a pencil to write and colour in. We have many fun activities that we do to help our fine motor skills.

We have enjoyed reading many new books this term. A favourite was the classic Mrs Wishy-washy. We made a class book based on the story. We pretended we were in the tub having a wash!

We love going into the writing corner and practising our writing! We love to pretend we are working in an office and we take notes while answering the phone and type away on keyboards!

Wikki Stix have been so much fun to use! We can bend them to make the letters in our names and we have used them in Maths to represent numbers. We also like to use them to make pictures and shapes.
