

Year 3 News

What have we been doing in Year Three?

In Year Three we have had a great start to the school year.

In our Religious Education lessons we have been identifying ways that we can use our bodies to communicate, and we have been wondering at the greatness of God and how he created us. We are also learning about the ways Jesus used his body to help others and to show God's love.

In Maths, we have been learning how to do skip counting and how to identify odd and even numbers. We have been learning about the properties of three dimensional shapes, and how to identify and draw lines of symmetry. Check out our line of symmetry self-portraits!

In Art, we have had fun using oil pastels and doing crazy self-portraits using paint. We learned about the primary colours and investigated what happens when we mix them.

We have been having lots of fun practising our team work skills in Science. We have also been learning about the Earth's rotation and how this causes day and night. We are learning how to represent this on an annotated diagram.
