

YEAR 4 NEWS

MATHS

In Year Four we try to keep the Maths hands on and engaging. To further our number understanding we used Smarties to look at place value concepts.

DIGITAL TECHNOLOGIES

In Computer we have been using the Osmo coding kits which are not only expanding our coding knowledge but also our creativity skills with programs such as Osmo Newton.

We have also been working on our typing skills and computational thinking.

DESIGN TECHNOLOGY

We have completed an investigation on playground equipment, and have analysed how play equipment is adapted to make it suitable for different age groups. To finish the unit we planned and constructed our own playgrounds.
