

# Year 6 News

Term 2 has been busy and fun-filled! We are getting ready to present our play at our assembly in week 10. Please come along to enjoy some top quality entertainment!

We have become proficient in measuring angles and identifying the size of missing angles in 2D shapes. We are now looking at how data is collected and represented in graph form.

In English we have been studying the use of figurative language techniques eg. similes, metaphors, idioms, alliteration, onomatopoeia.

We loved participating in the AFL clinics. Jye and Harry were the prize winners on the last day where they took some

spectacular marks!!!!

Look out future AFL drafts!

In Science we have been building our 'spooky houses' as part of our topic on electricity.

They looked very scary.....
