

Year 6 News

Term 3 is quickly coming to an end. We have completed another busy and productive term — only one more left at Primary School!

In Maths we have been looking at two-dimensional shapes, three dimensional objects, symmetry and transformation. We also started to look at Algebra (Mrs Leach's favourite!).

In English we are studying poetry, and we have written some fantastic examples.

A team from our class competed in the 2017 Optiminds Tournament. Our team performed very well and received the Alec Pascoe Spirit Of Optiminds Award. This was a fantastic effort considering it was the first time that our school had participated!

Next week we are leaving for Camp.....Scitech, abseiling, flying fox, team games, etc!
