The Awesome Year 2’s

Welcome to our beautiful Year 2 class!

Around the World
We are taking a trip around the world and finding out lots of interesting things about different countries. We have made origami butterflies and written our names in Japanese. We created koru art from New Zealand and made babushka dolls from Russia.

Religion
We have discussed how we can make good choices, just like Jesus. We visited our church and learnt about the Stations of the Cross. We then created our own collages of the Stations.

Maths
We have been using MAB in Maths to learn about ‘place value’. We have enjoyed playing the ‘trading game’, and trying to make very large numbers!

Writing
We have been learning how to write a recount using the correct text structure. We have also been practising writing perfect sentences, with correct punctuation.

Science
This term, we are learning about the Earth’s natural resources. We have investigated why we have sand in our sandpit and not soil. We have learnt about the water cycle and carried out an experiment to show how the water cycle works.
