Yr 3 Animal Safari

The Year 3’s have been on an Animal Safari this term! We were so excited about presenting our Assembly item, “The Enormous Crocodile”, at the end of Term one that we just had to find out more about animals.

Since then we have been on an excursion to the Bunbury Wildlife Park, where we got up close and personal with lots of birds, mammals and reptiles.

We also created some spectacular artwork, contrasting warm and cool colours, and models of mini-beasts.

While researching for our report writing, we discovered some amazing facts about our favourite animals. We also examined the leaf litter at OLOL. Did you know we have plenty of crustaceans at our school? No, not crabs, slaters!!
